SECURITY OF DEPOSITS

is guaranteed by the capital stock of the Union Savings Association, which was organized under its charter in April 1864, with a capital stock of \$500,000, of which \$125,000 has been paid up, and is constantly increasing; and as the savings and trust funds are invested in bonds and mortgages on improved unencumbered real estate, in United States bonds and other approved securities, and as the business of the Association is conducted by a board of thirteen directors, who are personally interested in the capital stock, the security to depositors is most ample, and its large and constantly increasing business is ample evidence of the high estimation and confidence in which the Association is held by the public.

We solicit Current Accounts,

And Accounts of Country Banks,

And to all such customers, will grant liberal accomodation.

SPECIAL ATTENTION GIVEN TO COLLECTIONS.

UNION SAVINGS ASSOCIATION BANK.

600 OLIVE STREET.

ST. LOUIS, MO.

The attention of the public is called to the superior advantages which the "Savings Department" affords to those who desire, by economy and saving, to secure a competency, as it is by the habit of saving in little matters, that riches are generally acquired; and a careful examination of the following tables will prove that "a penny saved is more than two pence won."

TAKE BRADY'S BITTERS FOR YOUR KIDNEYS

WILLIAM H. PRITCHARTT, CARGO AND FIRE INSURANCE AGENT, Northwest corner Main and Olive Streets, St. Louis.

Thus will every one, from these tables be able to calculate and know to a certainty, what a large sum they may have in the future by practicing a little self-denial, and saving a small sum in the present; for instance, let a person aged 20 years save 10 cents per day, and deposit monthly three dollars, it will in 10 years amount (table B) to \$518.44; which, if allowed to remain 20 years longer (table A), or until the person is 50 years old, it will, from such small savings, amount to \$1,691.17; a handsome sum for old age.

PARENTS

can make no safer provision for their children than by depositing a small sum, in the name of each child, with this Association, as they may have it to spare, as it will be thus free from the dangers and vicissitudes of their business, and will give their children, when they have finished their education, learned some useful trade or business, and arrived at the age of 21 years, a start in the world, and enable them to occupy a useful and honorable position in the community. Five dollars deposited every month for 21 years amounts to \$2,723 13, and 10 dollars per month, deposited for 10 years, then allowed to remain for 11 years longer, amounts to \$3,312 29; 10 dollars per month deposited for 5 years, and allowed to remain 16 years longer, amounts to \$1,865 67; and any other sum, large or small, in the same proportion.

THE MISSOURI DEMOCRAT,

Published Daily, Weekly & Tri-Weekly,

—BY—

McKEE, FISHBACK & CO.

North-east corner Fourth & Pine Streets,
ST. LOUIS, MISSOURI.

WILLIAM McKEE,
GEO. W. FISHBACK,
DANIEL M. HOUSER, } - - Proprietors.

This well-known and widely circulated Journal is noted for avowing its sentiments with candor, fearlessness and independence. It aims to be RIGHT rather than popular, and takes the responsibility of telling the TRUTH, regardless of the offence that may be given to Prejudice, Ignorance or Power.

The PRINCIPLES and OBJECTS which the MISSOURI DEMOCRAT espouses, are :

**THE CAUSE OF FREEDOM, JUSTICE AND
HUMANITY, PERPETUITY OF THE UNION,
OBEDIENCE TO THE CONSTITUTION
and SUPREMACY OF THE LAWS.**

The MISSOURI DEMOCRAT is a WESTERN NEWSPAPER, made up in the West, and devoted to Western interests. It discusses every subject of interest to estern men—moral, political, literary, commercial and financial. No Western merchant, banker, farmer, mechanic, drover, or manufacturer, can study his own interest and do without it. No farmer should sell a bushel of wheat, corn, oats, or a pound of beef or pork, without reading the DEMOCRAT. No merchant should sell his goods without reading the DEMOCRAT; no manufacturer his wares; no mechanic the product of his hands, without first consulting its well filled commercial columns. It is in every respect,

A FIRST-CLASS NEWSPAPER.

PRESTON'S Breakfast Cocoa.

This Cocoa is now being used as their habitual morning beverage

by many families who have never used Cocoa before, and is fast winning favor with the public.

Cocoa stands pre-eminently higher in value for use than Tea or Coffee, as it contains every ingredient necessary to the growth and sustenance of the body.

Medical men recommend Cocoa to invalids and convalescents, as preferable to Tea or Coffee; for while soothing to the nervous system, it is restorative, invigorating and sustaining in its nature, and therefore well adapted to those in feeble health, or of sedentary habits, and especially so to mothers, both before and during the time of nursing, improving the quality and increasing the quantity of Milk, and by its nutritive properties, sustaining the strength of both mother and child.

Manufactured by JOHN PRESTON, DORCHESTER, MASS.

GENTLEMEN:—We take the liberty to inform you that we have commenced the manufacture of

## Raised Copper Weather Vanes,

with a determination to produce the best Vane possible, and at the same time accurately represent the objects designed, and secure a sure weather guide, both of which we have accomplished. Our dies are all new, and produced from the best photographs in the Country, as our Vanes will invariably testify. We have three sizes of that fast, handsome, and noble Horse, **ETHAN ALLEN**, 48, and 30 inches, all perfect likenesses. All of our Vanes will be got up with equal care, and made in the best manner and warranted; they are made of the best of copper, raised and covered with 23 Carat gold leaf, and will stand the weather for many a Presidential term, always facing the wind. Our address will be stamped on each Vane. Although their life-like expression, as well as their superior gilding distinguish them at once from everything of the kind yet offered to the public.

## CHURCH AND OTHER VANES, CONSTANTLY ON HAND.

NEW PATTERNS AND DESIGNS FURNISHED AT  
SHORT NOTICE. REPAIRING DONE.

Special attention given to GILDING, which will be done in a superior manner.

I please call and examine our Vanes. If favored with your orders, which we most respectfully solicit, they will be faithfully executed and promptly attended to. If not satisfactory please notify and we will send the goods subject to our order.

Yours Respectfully,

**J. HARRIS & SON,**

# JOHN C. ZALLEE, Merchant Tailor

*No. 110 Olive Street,*

ST. LOUIS, - - MISSOURI.

## ST. LOUIS

VS

## PARIS.

St. Louis has rather reversed the order of things in the fashionable world, and has demonstrated the astonishing fact that excellence in the art of Tailoring is not confined to Paris alone, but on the contrary, a jury of Parisian gentlemen have had the candor to acknowledge an American house worthy the distinction of producing the

## Finest Gents' Clothing in the World.

It may not be generally known that Mr. Zallee, a well-known Merchant Tailor of St. Louis, had the boldness and enterprise to send a suit of gentlemen's clothing to the late Exposition at Paris, and was successful in bearing off the prize in the face of all competition. Mr. Zallee's reputation for taste, skill and fashion in clothing is no longer a local, but a national matter; and in addition to the above, at the seventh annual fair, at St. Louis, Mr. Zallee achieved a still greater triumph than he did at Paris. He was awarded, by the judges, the first premium for a whole suit—coat, vest and pants—beside which, all our citizens who are competent judges, award him their patronage; for a better fit, either at home or abroad, cannot be had than at his establishment.

Persons wishing fashionable clothing should not fail to give Mr. Zallee a call, at 110 Olive street, for in the matter of taste and skill he has no superior.

## EVERYWHERE TRIUMPHANT.

In offering to the public this washer, constructed upon a principle new, scientific and philosophical, we claim for it a superiority over every other Washer now in use. Since its introduction, its success is without a parallel in the history of Washing Machines.

It achieves, in every particular, the end sought.

It will wash from one article to one hundred in from one to three minutes, perfectly, without rubbing or friction. All kinds of lace washed in the most perfect manner.

It makes the clothes much whiter and cleaner than can be done by hand washing. It will clean coarse and fine flannels, leaving them flexible and soft, without shrinkage, and wash large bed-quilts in the short space of five minutes better than can be done by hand in an hour.

It performs its work in a most thorough manner.

By a simple contrivance of flanges, placed upon the inside of the Washer, and upon a perpendicular shaft revolving therein, a double spiral contrary motion is imparted to the water. This current, with its swift and ever changing direction, effectually cleanses all garments in a surprisingly short space of time without any injurious friction whatever.

It is the only Wash Machine in the world that does its work thoroughly without injury to the fabric.
